

# FOLEY ELECTRIC POWER GENERATION

# POWER ON.

## ONE COMPANY. TOTAL SOLUTIONS.

Emergency backup power is a requirement for many facilities... health care, computer or telecommunications centers, manufacturing plants, financial institutions and municipalities. Foley Power Solutions can handle all your emergency or prime power generation needs, large or small, urban or rural, simple to complex.

## FOLEY POWER SOLUTIONS OFFERS

- Generators powered by traditional & alternative fuels
- Detailed product specifications
- Expert load sizing tools and dealer consultation
- Flexible configurations
- Variety of financing options
- Trusted product reputation
- Clear communication throughout the buying process

## GENERATOR SET FEATURES

- Diesel ratings from 12kW to 17,460kW; Gas ratings from 11kW to 8,150kW
- Emissions compliance with most worldwide regulations
- Wide range of factory-designed options & ancillary equipment
- State-of-the-art electronic ignition and engine supervisory systems
- Easy to specify, permit, install and test
- World-class fuel efficiency
- Long life to overhaul
- Excellent transient response and steady state performance
- Turnkey service and support from Foley Power Solutions

## CAT UPS MEANS RELIABLE POWER PROTECTION FOR CRITICAL APPLICATIONS

With 97% total system efficiency, minimal upkeep and the lowest operating costs in the industry, the Cat Uninterruptible Power Supply (UPS) efficiently and reliably protects critical loads from a variety of power problems.

Available as double conversion battery technology, (minimum 40 kVA), or Flywheel technology, (minimum 150 kVA), Cat UPS provides total power conditioning plus critical load support during the transition from utility to standby power.

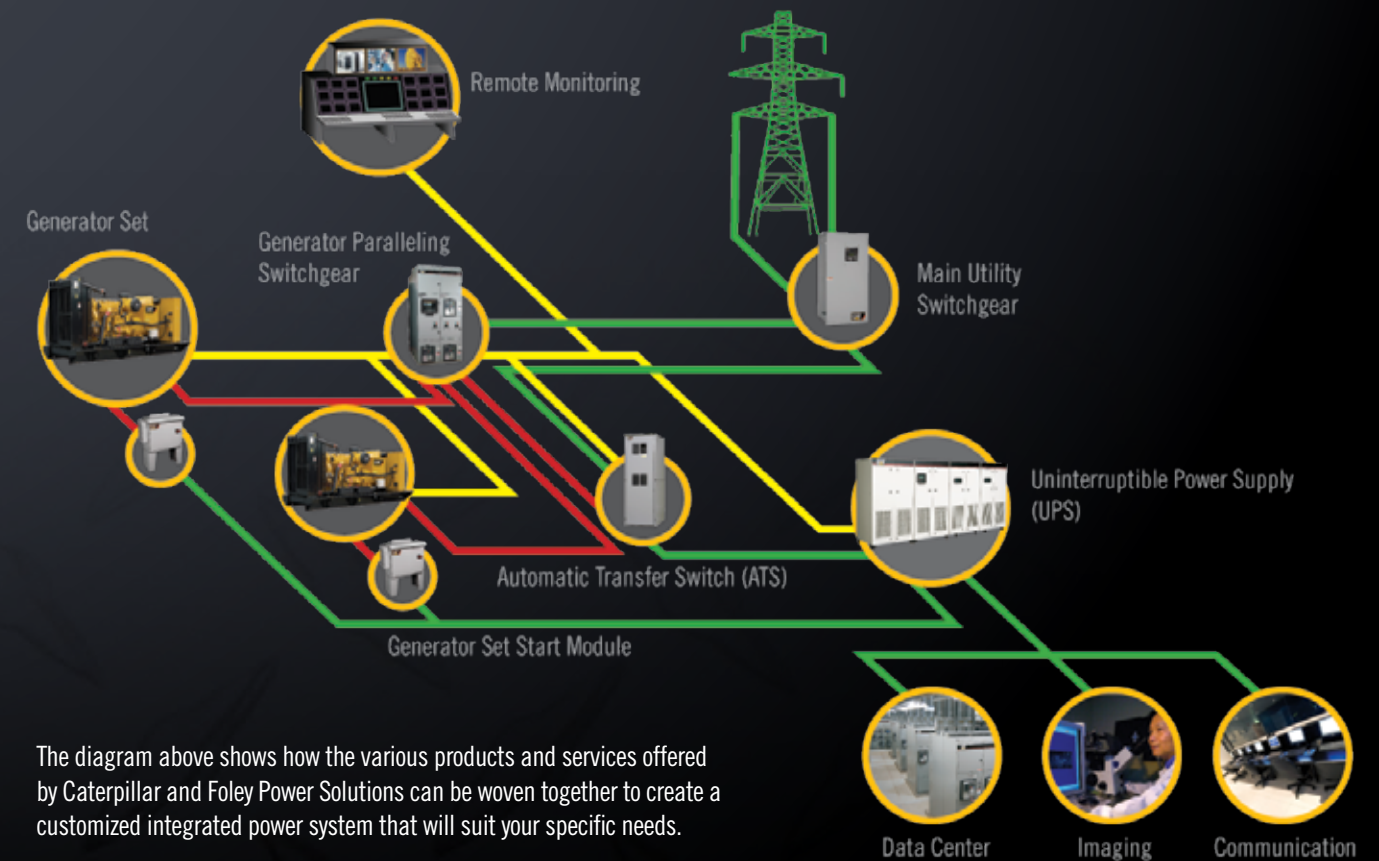

## GENERATOR SWITCHGEAR THAT PROVIDES INCREASED RELIABILITY AND EASE OF USE

Foley can provide switchgear in a variety of configurations to support a multitude of applications – from single-unit systems to complex arrangements that parallel multiple units with a utility source. Such integrated systems assure a single source of responsibility and support for all your power needs.

## A BROAD RANGE OF POWER TRANSFER SOLUTIONS

Foley Power Solutions offers a broad range of power transfer solutions and Automatic Transfer Switch (ATS) products. These transfer schemes can be arranged to suit any application from a single-unit ATS installation to highly complex multi-generator switchgear systems.

- Available in sizes to complement most installations
- Compliant with local codes and standards
- Open or closed transition designs
- Service entrance rated

The diagram above shows how the various products and services offered by Caterpillar and Foley Power Solutions can be woven together to create a customized integrated power system that will suit your specific needs.

# WE ARE WHERE YOU ARE.

Sales, service and support. No matter where you are in Kansas, Foley is nearby with expert sales consultants and a service and support network unmatched in Kansas. In the field, your place or ours, Foley Equipment will keep you up and running.
