SERVICE YOU CAN DEPEND ON

Foley Equipment offers service, maintenance and repairs for all Cat equipment and mixed fleets. With 15 convenient locations throughout Kansas and western Missouri, you can count on us for certified machine and component rebuilds, hydraulic repairs, undercarriage service, welding, fabrication and more. Our extensive parts inventory ensures that most repairs can be turned around quickly.

Routine service and preventative maintenance are essential to avoiding equipment failures at critical moments. While proactive inspections and repairs are essential at any age, they become even more important as machines age. Foley Equipment can help develop a maintenance and service plan for your machine to fit your budget and needs.

SHOP SERVICE

Our shop services reflect Foley's continual drive to identify and provide solutions that effectively support your success.

We guarantee all our repairs against defects in material and/or workmanship for a minimum period of 6 months with longer terms available. It's just one of the reasons we've been the region's heavy equipment leader for over 80 years.

Everything we do is backed by our commitment to live our company values and provide unmatched product knowledge and support.

- Welding & fabrication
- Paint services
- Dynamometer engine testing
- Engine, drivetrain and transmission repair options
- Electrical and fuel system reconditioning
- Diagnostic and special tooling used to troubleshoot and check repairs
- Technical analysis
- Certified machine, powertrain, engine, component and hydraulic rebuilds
- Over 150,000 square feet dedicated to shop service

FIELD SERVICE

When you need service in the field, emergency or not, Foley Equipment will promptly dispatch a knowledgeable field service technician to your job site.

Our technicians arrive equipped with the latest diagnostic tools and technology to provide complete on-site maintenance and repairs done quickly and efficiently. Our field service team is here to keep you on the job and out of the shop.

To help maintain proper maintenance and reduce repair costs, Foley Equipment also operates mobile lube service trucks fully equipped to handle your on-site maintenance needs.

CUSTOMER VALUE AGREEMENTS

Customer Value Agreements (CVAs) are equipment maintenance plans designed to make machine ownership hassle-free. CVAs match equipment and level of coverage to your needs and the needs of your machine. Maintenance is performed where and when it is needed.

Foley Equipment's legendary service allows operators to do and achieve more by removing the hassle of maintenance and allowing them to focus on what they do best. Here is what you can expect with a CVA from Foley Equipment:

- Savings of 10% when signing up for a CVA at time of purchase
- Increased uptime and extended life of machines
- Increased resale value per machine
- Transferable coverage
- Lower owning and operating costs with superior parts and efficient maintenance
- Access to equipment management tools like My.Cat.Com and VisionLink
- Flexible payment options
- No need for dedicated maintenance personnel
- Stay informed of machine health and status with the Cat app
- Knowledgeable and trained CVA techs with 80+ training hours annually
- Multiple locations and on-site maintenance options
- Over 450 service techs for quick response time
- Parts shipped as needed
- Available machine rentals during critical repairs
- Detailed inspection documents for customer records
- OEM parts, even on most competitive machines
- Maximize machine uptime with flexible scheduling of planned maintenance including after hours

FIND THE RIGHT PLAN

No matter which type of CVA you choose, you can expect value promises that help keep your machine easy to own and ready to work.

BASIC (DO IT MYSELF):

You complete your own routine maintenance and we make it easy to get genuine Cat parts to get the job done.

PLUS (DO IT WITH ME):

This plan provides you with the required filters, oil and samples to complete the 250 and 500 hour service intervals while Foley will provide the required filters, oil, samples and the labor to perform the 1,000 hour services. Included with the 1,000 hour intervals, you will receive a comprehensive machine inspection with each visit.

ULTIMATE (DO IT FOR ME):

Foley provides all of the required liquid filters, oil, samples and labor on each service interval. This includes a comprehensive machine inspection at the 1,000 hour intervals plus a basic inspection with the other Foley performed services. Additional options for the above plans include Quick Evac unit 250 or 500 hour oil change interval options, dry filters, hydraulic oil and/or coolant change, valve lash adjustment and circle adjustments on Motor Graders including labor during a Foley provided service interval.

SPECIALIZED SERVICES

We are committed to providing superior service. Our specialized shops are equipped with state-of-the-art diagnostic tools to troubleshoot and repair your equipment, providing you with the best quality and unparalleled service. From welding to complete rebuilds, we'll work to perform cost-efficient service to get your machines and engines back on the job.

IN-HOUSE MACHINING CAPABILITIES

- Machine work on all engine types
- Engine block machining
- Hydraulic cylinder rod repair and fabrication
- Hydraulic cylinder barrel repair and fabrication
- Casting repairs
- Fabrication of obsolete parts
- Lapping and grinding
- Metal spray
- Bearing bore reconditioning
- Portable line boring
- Lathe work
- Parts salvaging
- Shaft repair
- Vertical milling

UNDERCARRIAGE & TRACKS

We carry a complete inventory of undercarriage components from individual parts to entire track groups and have the technical experience and expertise to return your undercarriage to maximum performance.

Our undercarriage shop offers:

- Four track presses to better serve customers
- Complete undercarriage rebuild service
- Track pads, pins and bushing turns/replacement
- Custom track service / wear management
- Large inventory of genuine Cat undercarriage parts
- Service for most makes and models
- On-site repairs

WELDING AND FABRICATION

Foley Equipment is your one source for all your fabricating needs. In house engineering assistance allows us to design and fabricate buckets specific to your application. Our state-of-the-art facilities are designed to provide a full range of welding, fabricating and machining services.

Our welding and custom fabrication shop rebuilds and repairs all:

- Conventional and specialty buckets, ground engaging tools, booms, sticks, guarding packages, scraper wear kits and motor grader circles
- Blades, roller frames including up to complete bucket rebuilds
- Abrasive-resistant materials (carbide applications)

RADIATOR SHOP

Foley's specialized radiator shop offers fast, dependable, quality repairs and products at reasonable prices. We specialize in general line radiator cleaning and repair procedures with minimum down time. Foley can help you with hot tank, ultra-sonic cleaning and custom core fabrication for obsolete and discontinued radiators.

No matter how serious or simple your repair, take your radiator to any Foley Equipment location for service. We'll send it to our centrally located radiator specialty shop and ship it back to your local Foley location.

RADIATOR SHOP

12 SPECIALIZED SERVICES

HYDRAULIC COMPONENTS & REPAIR

Reliable, efficient, well-maintained hydraulics help you do more work each day, while keeping costs in line.

Whatever brand of equipment you run, Foley Equipment offers the hydraulic services and support you need to keep your hydraulics performing flawlessly and your machine running efficiently. Our hydraulic service shop provides hydraulic cylinder reconditioning of all brands, makes and models and specializes in repairing all parts of the hydraulic cylinder. Every part is tested using our 400hp hydraulic test bench to ensure a quality repair.

Foley takes pride in our technicians by providing specialized training on pumps and motors. Our technicians are not only experts in repairing construction equipment but also have experience with cranes, grapples, boom lifts, shears, cement mixers, dump trucks, sanitation trucks, as well as industrial and manufacturing machine hydraulic service.

HYDRAULIC MACHINE INSPECTIONS, PARTICLE COUNTS & MORE

Hydraulic inspections are available to provide you with recommendations for contamination control, and cost saving repair solutions.

Foley also provides consultation on filters, fluids and cleaning or change intervals for maximum hydraulic system performance. Particle counts can be completed on site to determine the present level of contamination in your hydraulic system, and what action you can take to protect your machine.

HYDRAULIC HOSE & FITTINGS SERVICE

Need it fast? We've got you covered with fast turnaround times (usually less than 30 minutes) and service while you wait. We even have a 24/7 emergency after-hours service.

Foley has a hose shop in each of our 15 locations where we can custom build most hose assemblies for any make or model machine.

We carry a large selection of light, medium and high-pressure hydraulic hoses using permanent or reusable crimp couplings. Our inventory covers a broad range of pressure tolerances, materials, and fitting styles.

Each hose is "Certified, Crimped and Cleaned" to Caterpillar specifications, and every hose we build comes with a set of seals.

Our outstanding inventory of high quality hydraulic hoses ensures that we have the right hose to match your need and specification for any make or model machine, all at a competitive price.

ALL MAKES. ALL MODELS.

Whether you need a complete hose or an individual flange/fittings, we carry it all:

- One-wire, two-wire, high-pressure (4,000 - 6,000 PSI) hoses, DOT certified air brake lines, A/C lines, hose guards, pilot hoses, and suction hoses
- A wide variety of JIC, NPTF, STOR boss, flange fittings (code 61, 62, and CAT), and ORFS hydraulic couplings and adapters

MACHINE REBUILDS

**“CAT MACHINES
ARE BUILT TO BE REBUILT.”**

"IT'S QUITE A BIT CHEAPER TO DO A REBUILD THAN TO PURCHASE A BRAND-NEW ONE. COST IS A MAJOR FACTOR."

Strack Incorporated

"IT'S GOING TO BE LIKE A BRAND-NEW LOADER WHEN WE GET IT BACK."

Schildberg Construction

"THE BIGGEST REASON FOR US USING CAT IS THE SERVICE. FOLEY EQUIPMENT STANDS BEHIND EVERYTHING THEY SELL. IT'S THE SERVICE BEHIND THE MACHINE WE CAN DEPEND ON." **Jomax Construction**

OIL & GAS ENGINE SERVICE

MEETING TIGHT PRODUCTION DEADLINES WITH THE HIGHEST QUALITY STANDARDS & SERVICE

Many Cat engines are rebuilt for additional life at the Foley Engine Rebuild Center located in Park City, Kansas. We specialize in Cat 3616 to 3304 engines, with our main area of focus being in the oil and gas industry.

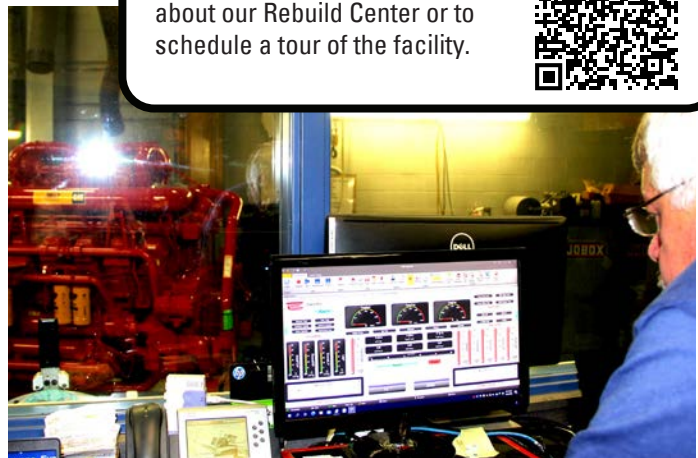

The performance Foley promises is the performance you get. No bull. If we can't meet your schedule, we tell you upfront before the work begins. Straight up answers with quoted upfront costs.

Our technicians have decades of experience and know exactly what it takes to build a high quality engine with a tight deadline. You will have one point of contact that will supply you with clear communications, timely answers and realistic expectations throughout the entire rebuild process.

- 3304 to 3616 capability
- Exchange engines & components
- 24 Hour field service
- Large parts inventory
- Machine shop
- 1,500 & 5,000 H.P. Dynamometers
- Two paint booths
- 5-Star contamination control rating
- Field Service
- Gas Compression
- Well Service
- Drilling

POWER GENERATION SERVICE

Foley Power Solutions understands you need your power system working. We can get your system operating smoothly with our extensive professional services. Whether you are renting or have purchased a power system, we will be there to support you every step of the way.

Foley Power Solutions maintains and services all brands of gas and diesel generators as well as electrical distribution equipment, automatic transfer switch (ATS), switchgear, circuit breakers, protective relays, uninterruptible power supply (UPS) and transformers.

We can also provide used and rebuilt part options and offer scheduled maintenance programs that can lower long-term operating expenses.

SHOP & FIELD SERVICE

Generator Service: We also have technicians to service your generator needs. If an emergency occurs where your facility loses power, Foley Power Solutions technicians respond quickly to restore power to your business. We offer routine maintenance, inspection of equipment and can perform troubleshooting as needed to ensure your Cat generator is working correctly. Foley Power Solutions technicians provide peace of mind and help you keep your operations on schedule.

Our capabilities include:

- Inspections and repairs on all makes & models
- Monthly, quarterly, semi-annual & annual inspections
- Oil, fuel & coolant sampling
- Annual oil & filter replacements
- Belts, hoses & battery replacements
- Inspection reports & recommendations

With fast turnaround times and expert service in the shop and in the field, Foley Power Solutions legendary service gives you peace of mind that your power generation system is well cared for. In addition to basic services and equipment testing, we use genuine parts to ensure your system is ready to respond when you need it most.

CUSTOMER VALUE AGREEMENTS

Every piece of Cat equipment regardless of whether it is a generator or engine is designed and built to provide maximum productivity and operating economy throughout its working life. Foley Power Solutions can help you maintain that built-in value through a Customer Value Agreement (CVA).

Your agreement may include as few or as many engines as you wish. Foley Power Solutions will work with you to determine the best support to maximize your engine's productivity and minimize costs.

- **Agreement flexibility** – adapt to level of support to meet your requirements
- **All maintenance parts and tools** – Cat maintenance parts/tools for routine services
- **Accurate, professional testing** – Caterpillar trained technicians have the specialist knowledge, technology, and global backup to check your equipment
- **Early warning** – advanced diagnostics to identify problems and schedule repairs
- **Plan ahead with greater confidence** – improved reliability enables tighter scheduling of maintenance intervals
- **Increased uptime** – engines run longer and more efficiently, improving profitability

WARRANTY EXTENDED SERVICE COVERAGE

Extended Service Coverage (ESC) offers coverage beyond the Standard Warranty period and, because it is transferable, it may increase the resale value of your Cat engine or generator set.

ESC from Foley Power Solutions offers protection against unexpected repair bills and a hedge against rising parts and labor costs by providing parts and labor reimbursement for covered components, less any applicable deductible. The broad range of coverage options, which can be customized to suit your individual needs, combined with simple pricing terms, provides confidence and peace of mind towards your power system's performance today and tomorrow.

ESC is available for power generators and all power engines.

ADVANCED ELECTRICAL SERVICES (AES)

Foley Power Systems can provide the resources you need for switchgear, automatic transfer switches and uninterruptible power supply (UPS) maintenance, modernization and enhancements.

As your Advanced Electrical Services solutions partner, our trained technicians are ready to provide you the most effective electrical energy solutions you need, regardless of make or model to help prevent total energy loss.

ADVANCED ELECTRICAL SERVICES SUPPORT & MAINTENANCE ON:

- Switchgear Maintenance & Modernization
- Protective Relays Testing
- Infrared Thermography
- Turn Key Project Management
- Risk Mitigation

FOLEY RIG360 TRUCK PARTS

WE HAVE ACCESS TO OVER 350 PART VENDORS AS AN HDA TRUCK PRIDE DISTRIBUTOR

As an HDA Truck Pride Distributor we are able to competitively price and stock parts for all heavy duty truck makes and models. This includes Peterbilt, Kenworth, Freightliner, International, Mack and more.

Parts that are in stock may be picked up the same day at your local Foley RIG360 Truck Center. You also have the option of having your parts delivered to over 160 drop boxes across Kansas and western Missouri. Next day delivery is available for parts that are not stocked.

SITECH CENTRAL SERVICE

UNPARALLELED SUPPORT, TECHNICAL EXPERTISE AND PROVEN EXPERIENCE

SITECH solutions are known for their superior quality and robustness. They are designed to offer you years of uninterrupted productivity improvement. To ensure your SITECH solutions stay in perfect working order, regular maintenance is needed.

In the rare occasion that your SITECH hardware or software is not working as expected, SITECH Central has the support, technical expertise and proven experience to get you back in business as soon as possible.

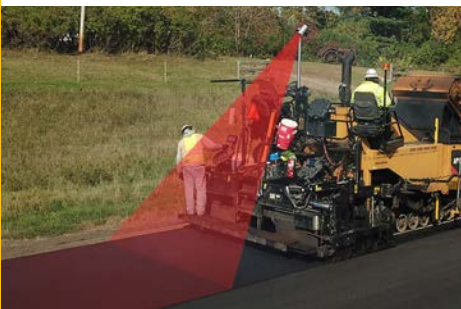

SITECH Central, operated by Foley Equipment is the authorized service center for Trimble construction tools such as laser levels, pipe and grader lasers, Trimble and Accugrade machine control systems and Trimble Site positioning GPS and optical products.

We understand that downtime of equipment costs you money so we are committed to getting this equipment repaired and back in the field as quickly as possible with our strong team of service technicians, spread across Kansas and western Missouri. All our technicians are members of the Trimble Preferred Service Alliance and are trained to Trimble's exacting standards.

All warranty and non-warranty services on your equipment will be carried out to factory specifications with the latest in diagnostic and calibration tools on hand to expedite this service.

Our service centers also offer:

- Product specification guidance
- Scheduling servicing around your work projects
- Replacement device hire
- Full in-house GPS and Total Station servicing capability

FIELD SUPPORT

Just like our service centers, our skilled team of field technicians are dedicated to making sure the downtime of your technology is kept to an absolute minimum.

Our field technicians are also skilled in:

- Installing base station infrastructure for sites
- Carrying out radio surveys for new sites
- Carrying out operator training in GCS900, SCS900, UTS operation and site calibrations.

CONSULTING SERVICES

Not everyone knows what equipment they need or how to use it, which is why you can count on support from SITECH Central. We'll help you find the right solution, then provide training and support to ensure you can maximize productivity. You can come to a training session at one of our locations or pick your own location to learn about UAV drone mapping, base station and rover training and more.

TECHNOLOGY LEVERAGE YOUR DATA

Cat technologies as well as SITECH technology works together to outfit your entire fleet to help you get the most value from your Cat equipment and your mixed fleet. Our offering of components and software provide you with a truly connected work site.

CAT DIGITAL

Whether you are looking to draw more insights from your data, to run a more productive job site, or transform your safety culture - Foley Equipment Service can help with information, advice, and partnership to tackle your largest challenges.

From fleet monitoring and management, to production and compaction measurement, to operator guidance and awareness, Cat Digital technology helps operations of all sizes and types to work more efficiently, profitably and safely.

EQUIPMENT MANAGEMENT SOLUTIONS

Equipment Management Solutions help you stay on top of equipment monitoring, maintenance and repairs, allowing you to do what you do best. By working with Foley Equipment you can better understand performance benchmarks, identify areas for improvement and keep every asset operating at maximum capacity.

VISION LINK

Make the right decision at the right time with VisionLink. VisionLink provides you with a holistic view of your job site by integrating site productivity, material quantities, and materials movement with asset and fleet management. You can raise productivity and lower costs for your entire fleet by streamlining the management of on-site operations.

Maximize Productivity with VisionLink:

- Monitor when and where your equipment is working
- Track asset utilization and minimize idle time to reduce costly fuel burn.
- Improve production efficiency through informed, data-driven decisions.
- View real-time updated surface models based on machine activity.
- Schedule reporting of volume and quality assurance data and other business-critical information for more accurate billing, inspections and project progress.

WE'RE HERE FOR YOU

Our knowledge is yours. Access to expert technical information as well as operator, technician and safety training is available.

PRODUCT SUPPORT & INSIDE SALES REPRESENTATIVES

Foley Equipment has an experienced and highly trained team of Product Support and Inside Sales Representatives dedicated to helping you with proper equipment maintenance, repair and rebuild option as well as other support programs.

TRAINING

Foley Equipment provides comprehensive programs and certification to ensure your operators and employees know what they need to know to operate and maintain your equipment safely.

Foley offers a wide range of technical and safety courses, including hands on experience with Cat and non-Cat equipment, all led by knowledgeable instructors with industry experience.

TECHNICAL TRAINING

Foley demonstrator-operators are highly trained and prepared to help start your team of operators off right. We offer over 80 standardized courses. By request we will work with you to provide hands-on and classroom training on the proper operation and maintenance of your equipment.

SAFETY TRAINING

Safely home. Everyone. Every day.™ Together, our commitment to safety includes solutions for the job site and resources to elevate your workplace. Caterpillar Safety Services offers online and instructor-led training on equipment safety, leadership development, skills training and process improvement tools.

TECHNOLOGY TRAINING

Foley offers courses online, in the classroom and in the field to help give you an understanding of the technology used in your equipment. Courses range from GPS basics to advanced field training.

CUSTOMIZED TRAINING

We offer customized training sessions at off site locations on a variety of subjects including seminars on emissions, maintenance, fuel filtration and lubrication.

34 EQUIPMENT SOLUTIONS

In addition to Foley Equipment's many service solutions, Foley also sells and rents a full line of Cat machines, attachments, generators and industrial engines.

The range of equipment and scope of services offered by Foley Equipment is the result of our focus on the way work gets done by the people who get it done.

Established in 1940, our reputation has been built on the finest earth moving and construction equipment in the world...big and small...and backed by a service and support team second to none in scope and expertise.

We're certain you won't find a more comprehensive approach or breadth of product and service anywhere.

MACHINE SOLUTIONS

No matter what type of work you do, Cat machines deliver top performance, unmatched versatility and excellent fuel efficiency.

Foley Equipment sells both new and pre-owned Cat machines that are technologically advanced and reliable with time-saving attachments and tools designed to get the job done fast and efficiently.

Our new and used machines coupled with technology from our partner SITECH, can equip you with innovative construction technology and automation to solve your largest construction challenges and help you take your business to the next level.

SITECH[™]

POWER SOLUTIONS

Foley Power Solutions offers a full line of new and pre-owned standby and prime electrical generators, switches, back-up power supplies and auxiliary distribution equipment. From the largest hospital, data center or industrial facility to business back-up generators, Foley Power Solutions will keep you up and running.

Foley Power Solutions is a Caterpillar Power Solutions Distributor, (PSD), offering the full range of Cat engines for any industrial or OEM application. Cat engines deliver unsurpassed reliability, durability, fuel efficiency, and low cost of ownership.

Foley Power Solutions is also, a long-time partner to the petroleum industry providing specialized applications for the well site including pumping, well servicing, workover, acidizing, fracturing, cementing and gas compression for transmission.

RENTAL SOLUTIONS

Any Tool. Any Job. Whether your rental needs are short-term, long-term, from big machines to small hand tools, in town or out-of-town, Foley Rental has the solution and is your direct line to the complete line of Cat machines, time-saving attachments, aerial lifts, welders, trenchers, compressors...you name it! The equipment you need is always on hand because our inventory stays in Kansas and Missouri and if we don't have it, we can draw on the resources of the nationwide Cat Rental Store network to find it.

The backbone of our fleet is newer model Cat equipment but we rent more than just Cat. Whatever the job, Foley Rental carries a huge assortment of brand name equipment including Genie, Ditch Witch, Wacker, MultiQuip, Miller, Sullair, Husqvarna, Hilti, Polaris, Toro, trench shoring and other common construction tools and equipment.

Foley Rental Power can handle your short or long-term needs in portable electric power, temperature control and air compression including specification, delivery and set-up, distribution equipment and fuel service.
